Recommends Heads of De-
partments—Women Or-
ganize Society—Cattle
Shipments.

Roswell, N. M., April 27.—The plans of Roswell's new mayor, Dr. G. T. Veal, are similar to those obtaining in cities having the commission form of government. He proposes to place under the control of one man the street and alley work, water works, sewers, garbage and street sprinkling, and has recommended J. W. Bennett, the present superintendent of the city water works. Mayor Veal also plans to name but one man on each of the other standing committees, with the possible exception of the committee on finance and perhaps the water, lights and sewer committee. A member of the council has proposed a new scheme for street sprinkling to cover a district eight blocks wide east to west, and fully half a mile long, north and south, and assess the cost against the abutting property.

Mrs. Winona E. Reeves, of Keokuk, Ia., supreme president of the P. E. O. sisterhood, a literary and social body, has organized a chapter of the order in Roswell. The maintenance of an educational loan fund for the benefit of young women who have not sufficient funds with which to acquire an education is the main object of the chapter. The officers of the Roswell chapter are: President, Mrs. O. K. Ingram; vice president, Mrs. W. I. Murrell; recording secretary, Miss Edith Geyer; corresponding secretary, Miss Nellie Mason; treasurer, Mrs. Geo. Zink; chaplain, Mrs. W. K. Buckley; guard, Mrs. Sylvester Johnson; journalist, Mrs. Dorothy McNally; organist, Mrs. John T. McClure. Mrs. J. W. Lewis, of Carlsbad, where the only other chapter of the order in New Mexico is located, attended the organization of the Roswell chapter.

Dr. P. H. McDowell, the new pastor of the First Baptist church of Roswell, has arrived from Omaha with his wife and daughter.

Guy Roberts, of Iowa, Kansas, has shipped three train loads of cattle which he bought of Sutherland and Johnson of Roswell, Kan.

Deming, N. M., April 27.—Frank Barrett and J. N. Snyder have each ordered 15 horse power electric motors installed. W. L. McBride has ordered a 20 horse power motor for pumping water on his desert claim, six miles southeast of Deming. The Deming Ice and Electric company is building a power line three miles south. It then branches, the right line running two miles west and the left branch going two miles east and one south. **HOW HE CURED
BLOOD POISON**

I didn't find out I had contracted Contagious Blood Poison until it had made considerable headway. I had heard a great deal of the value of S.S.S. as a blood medicine, in fact had a friend who had cured himself of the same disease through its use, so as soon as I discovered the nature of my trouble I began taking it. I got along splendidly from the very first and my recovery was steady. When I first began the use of S.S.S. my face was so full of sores and eruptions that I could not shave. Other parts of my body were similarly affected, but there is now not a blotch, pimple or other sign of the disease. I was cured by S.S.S. and I know I am cured to stay cured as this was several years ago. There is nothing that equals S.S.S. for Contagious Blood Poison and I always recommend it in such cases.

WALTER WEBER.
No. 430 1/2 Fourth St., Evansville, Ind.

The acknowledged virtue of S.S.S. as a blood remedy induced Mr. Weber to commence its use when he found he had contracted Contagious Blood Poison. The good results he obtained is just another demonstration of its value as a cure for this disease.

Contagious Blood Poison is the most powerful and destructive of all blood disorders. Its virus permeates the entire circulation and this explains why any one afflicted with this malady usually finds its symptoms manifested in every portion of the body. From head to foot the insidious poison breaks forth. The hair and eyebrows come out, the mouth and throat ulcerate, skin eruptions and sores and ulcers break out on the body, the bones ache, glands in the groin swell, and frequently the nails on hands and feet are affected.

The only possible way to cure Contagious Blood Poison is to remove the cause by purifying the blood. This is just what S.S.S. does; and it is the only medicine that absolutely and thoroughly cleanses the circulation of every particle of the germs and virus of the disease. Mercury, Potash, etc., are often used by despairing sufferers in the hope that such strong treatment will kill the poison. But this cannot be done; the disease may be checked temporarily and the symptoms improved, but the old poison is slumbering in the blood, and when the treatment is left off the disease always returns.

The ability of S.S.S. to cure Contagious Blood Poison comes from its blood purifying properties. It goes into the circulation and removes every trace of the poison, makes the blood pure and healthy, and leaves no dregs of the virus to break out later on. S.S.S. is made entirely of roots, herbs and barks, each of which has a direct and specific effect in purifying the blood. S.S.S. does not contain a particle of mineral in any form to upset the stomach, affect the bowels, or inflame any of the delicate membranes of the body. It is Nature's blood purifier, potent and healthful, and so valuable are its tonic effects that when S.S.S. has rid the entire system is left in fine physical condition.

We want to help every Contagious Blood Poison sufferer to get well, and for this purpose we have prepared a special book for Home Treatment. We will mail this book with any special medical advice free.
